### INGREDIENTS

Grain Products, Processed Grain By-Products, Vegetable Oil

---

### DIRECTIONS FOR USE

The “Grower” ration is intended to be fed free choice to breeder deer in confinement. This formula is designed for fawns, lactating doe, and bucks during the growing season. The elevated protein and fat content of this ration helps promote early development in fawns, better milk production and conditioning of lactating females, and promotes healthy horn growth for bucks during the growing season. Always provide hay and free-choice mineral. Provide plenty of fresh, clean water at all times.

---

Warning: Do not feed to horses. Keep in dry cool place and do not feed moldy or insect infested feed.

\*Not for human consumption

Follow all state and federal laws on baiting deer.
